

TSH
(Mouse monoclonal Antibody anti-human Thyroid Stimulating Hormone)

PRODUCT ANALYSIS SHEET

Cat # 53.188.06

Clone:	2/2B4 1A8
Batch:	B15D4/3P1
Size	3 x (1 mg / 635 µl)
Format:	Purified Unconjugated, Liquid
Concentration:	1.57 mg/ml in BBS 0.1M pH 8.0
Preservative:	None
Purification:	Purified by Protein A affinity chromatography
Isotype:	IgG1 Kappa
Immunogen:	Human recombinant TSH
Mouse / fusion partners:	Balb/c (Charles River)/ NSO
Specificity :	Recognizes natural and recombinant Human TSH, epitope III (1)
Application:	RIA/ELISA as capture antibody
Storage & Stability:	4°C / 31.10.2025
Update:	November 15, 2011

1. Donadio S et al.
Both core and terminal glycosylation alter epitope expression in thyrotropin and introduce discordances in hormone measurements.
